

# 24NNG

Efficient by Design

**Solids Handling Pump**

## PRODUCT CAPABILITIES

Size	610mm x 610mm
Capacities To	5440 m <sup>3</sup> /hr
Total Dynamic Heads	40 mHs
Solids Handling	127 mm
Flanges	24 x 24 ANSI 125lb w/ DIN option
Impeller	Enclosed Cast Iron
Weight	2750 kilos
Mounting Options	Pedestal Frame Mount, Vertical Frame Mount

## FEATURES

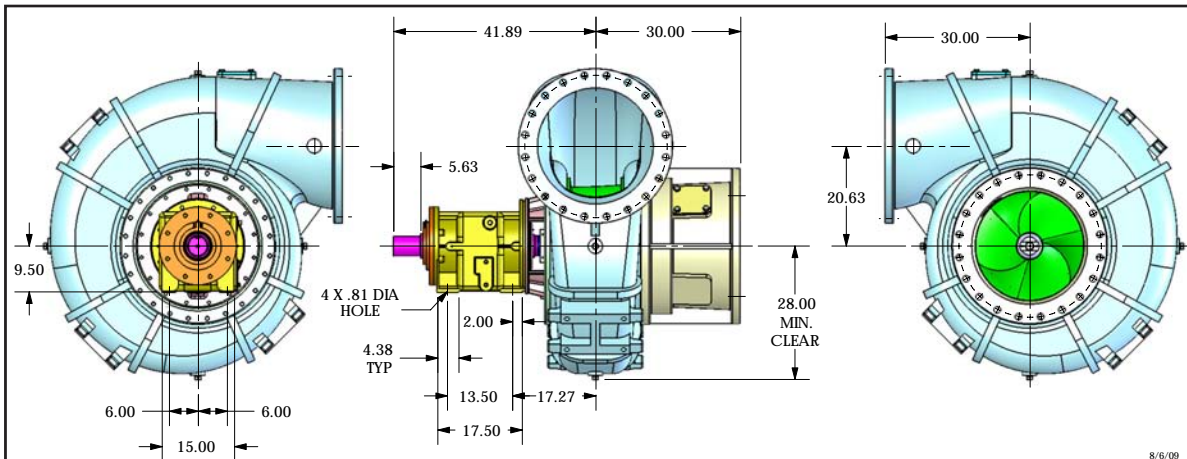

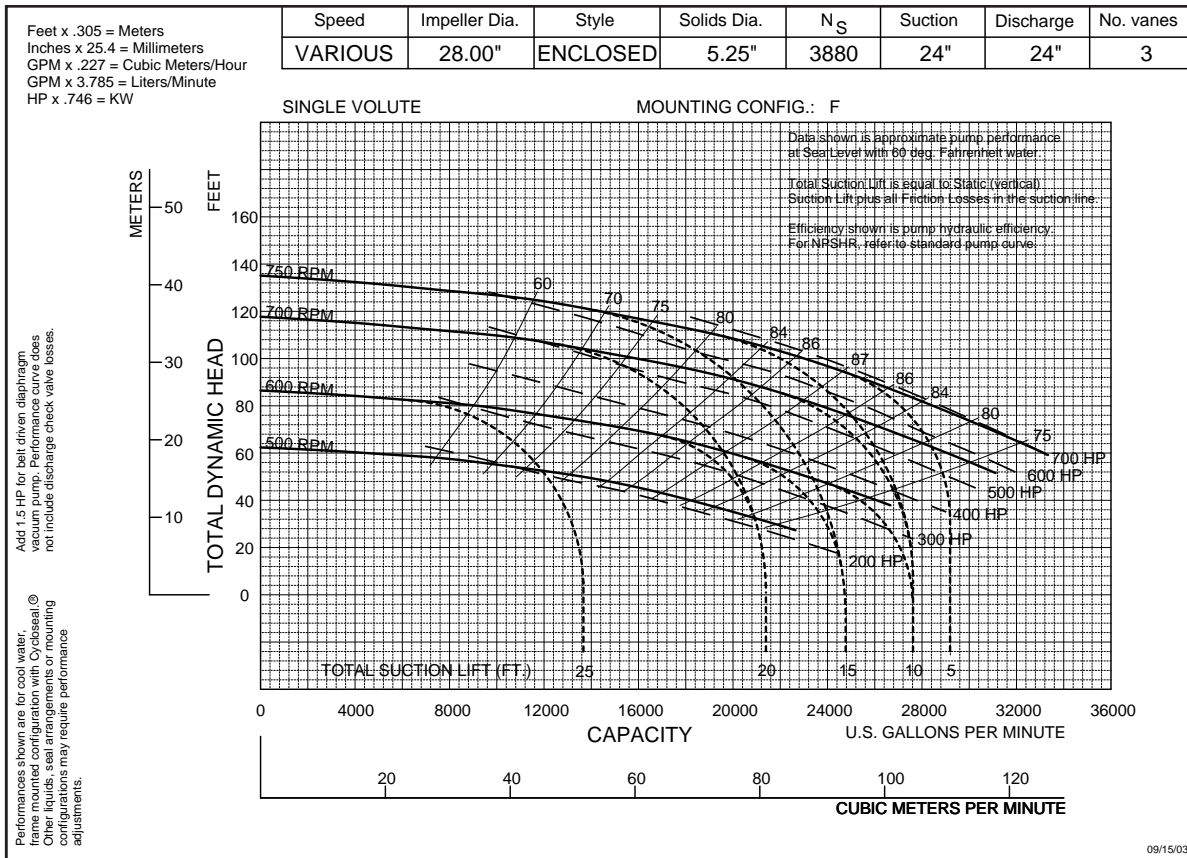

- ✓ B-10 Bearing Life (20,000 hrs.)
- ✓ Best Efficiency Point - 87%
- ✓ Run Dry option available
- ✓ Cycloseal® Cornell
- ✓ 17-4 pH Stress Proof Shaft
- ✓ Volute Passes Stated Solid Size

Other material options available

## MATERIALS OF CONSTRUCTION

Materials	All Iron, Special Material Available
Shaft	High strength 17-4 PH
Bearings	Pump End: Ball Bearing Drive End: 3 Angular Contact Ball Bearings
Mechanical Seal	Cycloseal®, Tungsten, Silicon-Carbide face material
